RE: 2001 Annual Report to the Governor

Background and Summary

The State Board of Health is required by Chapter 43.20 RCW to submit an annual report to the governor. During the November 14 meeting, Board members reviewed and discussed a draft of the proposed text for the 2001 report. That text was written in a way that would allow the Board to repurpose the design developed for the 2000 report. Varying design only slightly would provide consistency in look and feel and reduce publication costs. During the week of December 10, staff provided Board members with copies of the final proof of the 2001 report for review and comment. Staff made minor changes to the document based on Board members' comments prior to printing. The resulting document is attached.
